Education

Bachelor of Engineering in Computer Science KLS Vishwanathrao Deshpande Institute of Technology, Haliyal Relevant Coursework: Data Structures, Algorithms, Software Engineering, Web Development	Expected Graduation: 2026
PUC, Science KLS PU Science And Commerce College, Haliyal	2022
Primary and Higher Education Milagres English Medium High School, Haliyal	2020

Technical Skills

- **Programming Languages:** Python, Java, C, C++
 - **Web Development:** HTML, CSS, JavaScript
 - **Tools**
Platforms: GitHub, Linux (Ubuntu)
 - **UI/UX Design:** Figma
 - **Database Management:** MySQL, DBMS
 - **Cloud Technologies:** Microsoft Azure
 - **Version Control:** Git
-

Projects

Your Scheme – Government Schemes Awareness Platform

- Developed a web application providing details on 1,270+ government schemes, benefiting thousands of users.
- Implemented search and filtering functionalities using JavaScript to enhance accessibility and usability.
- Integrated a Firebase backend for real-time updates and dynamic content management.
- Hosted the platform using GitHub, ensuring high availability and scalability.

PeacePath – Mental Health Support Platform

- Engineered a responsive web app offering meditation guides and counseling services, improving user satisfaction by 70%.
 - Optimized UI, reducing bounce rates and enhancing user retention.
-

Certifications

- **Python Essentials 2 – Cisco:** Completed a comprehensive course on Python, gaining in-depth knowledge.
 - **Microsoft Azure AI Fundamentals:** Participated in a workshop refining complex prompts for AI models, mainly ChatGPT.
 - **TCS iON Young Professional Course:** Developed skills in collaboration, public speaking, and soft skills.
 - **Full Stack Web Development:** Acquired expertise in front-end and back-end technologies, database management, and API integration.
-

Achievements

- **College Hackathon on Mental Health Support Platforms:** Developed a comprehensive mental health support platform recognized for innovation.
 - Applied insights to improve website organization by 20%, strengthening overall project presentation.
 - **App Development Workshop:** Conducted a hands-on training session teaching participants how to build mobile or web applications.
-

Extracurricular Activities

Tree Planting Initiative (Dec 2023)

- Organized a community-driven tree plantation drive, raising awareness among 130+ people.
-

Languages

- **English** (Proficiency: Understand, Read, and Write)
 - **Hindi** (Proficiency: Understand, Read, and Write)
 - **Kannada** (Proficiency: Understand, Read, and Write)
-

Additional Skills

- **Problem-Solving and Analytical Thinking:** Ability to analyze complex issues, identify patterns, and develop efficient solutions.
 - **Effective Communication:** Skilled in conveying ideas clearly, both verbally and in writing, to diverse audiences.
 - **Team Collaboration and Leadership:** Capable of working collaboratively in teams while demonstrating leadership to drive projects forward.
-

Goals and Objectives

- Seeking an entry-level position to utilize my knowledge in relevant technologies and contribute to organizational success while enhancing my professional expertise.
- Aiming for a position that enables me to apply my skills in software engineering, automation, or IoT while growing as a professional by tackling complex challenges.
- To work in a collaborative environment where I can contribute to organizational goals while advancing my technical expertise and problem-solving skills.
- To pursue a role in the technology industry that encourages continuous learning, professional growth, and the development of impactful solutions.
